QA32-8B剪切机

QA34-10角钢、槽钢冲剪机

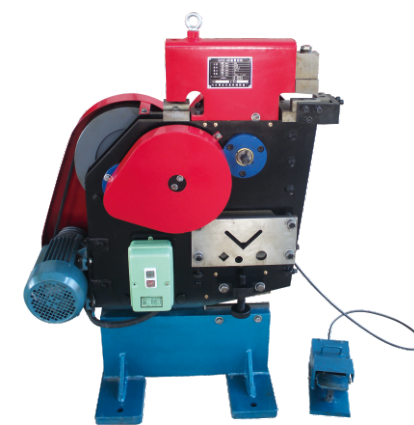

QA35-12冲剪机

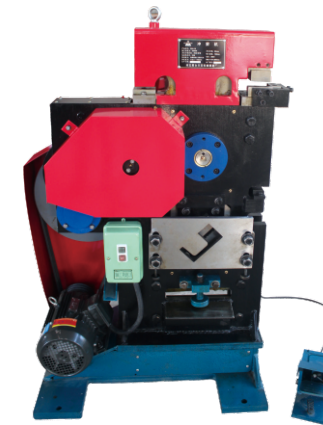

Features

- ◆ 1. Eliminate the old mechanical shearing machine gear rotating part, perishable, easy to bad, the noise big shortcoming.
- ◆ 2. easy to operate, high shearing precision, can be programmed, set shear sheet metal width and the number of times.
- ◆ 3. Less consumption, energy saving, low noise, no pollution.
- ◆ 4. Advanced structure, less wearing parts, without maintenance.
- ◆ 5. Combined metal punching and shearing machine, is used for punching of angle steel, flat iron, C channel iron, and shearing of round bar, square bar, angle steel, flat iron, C channel iron, die cut and so on.
